Handheld occlusion scan

Post and core scan

True color texture scan

Scan full arch implant in a single step

Up560

Model UP560

Size：	**305*310*550（mm)**
Weight：	**14kg**
Cameras：	**Dual 3.0 MP (High frame rate)**
Accuracy：	**＜6 microns**
Projector：	**Customized blue light**
	multi-color scanning
Interface：	**USB 3.0**
Output format：	**STL;UM;PLY;OBJ**
Power supply：	**AC110-240V, 50HZ**

Functions:

All-in-one scan

One click scanning triple tray

Detect margin line

True color texture scan

Impression scan

Unsectioned models scan

Scan speed:

Full arch   15s

12-units die   17s

All-in-one   21s

Impression   35s

Triple tray   70s
